Facility Rental

Our 12,000+ sf World Class Performing Arts Academy is not only the ideal facility for instruction in the arts, but can serve as host to a variety of functions and special events including: birthday parties; business meetings; corporate seminars; and even church services. As a performing arts instructional facility, we are always ready to provide rehearsal space to outside organizations such as school dance teams or choral groups, as well as individuals and small groups of performers.

We have adequate furnishings on hand to provide for small to medium size gatherings, and can make any arrangements necessary to provide for larger functions. We have a concession area and a partial kitchen with microwave oven, sink, refrigerator and freezer which can be utilized to provide food and drink services, or our party planners can help make arrangements with catering services.

The black box theatre can seat up to 200 spectators and is an ideal performance venue for small dance performances, theatrical productions and talent showcases. 40 par-can stage lights are pre-installed and ready to be used, and additional lighting and audio equipment can be put in place for more elaborate shows. Whatever your need, we have the flexibility to accommodate you.
